Requirements Document: Lounge Management System

Use cases PREPARED FOR

PPG Global Lounges

1. Use Case: Create and Manage Partners

Actor: Admin

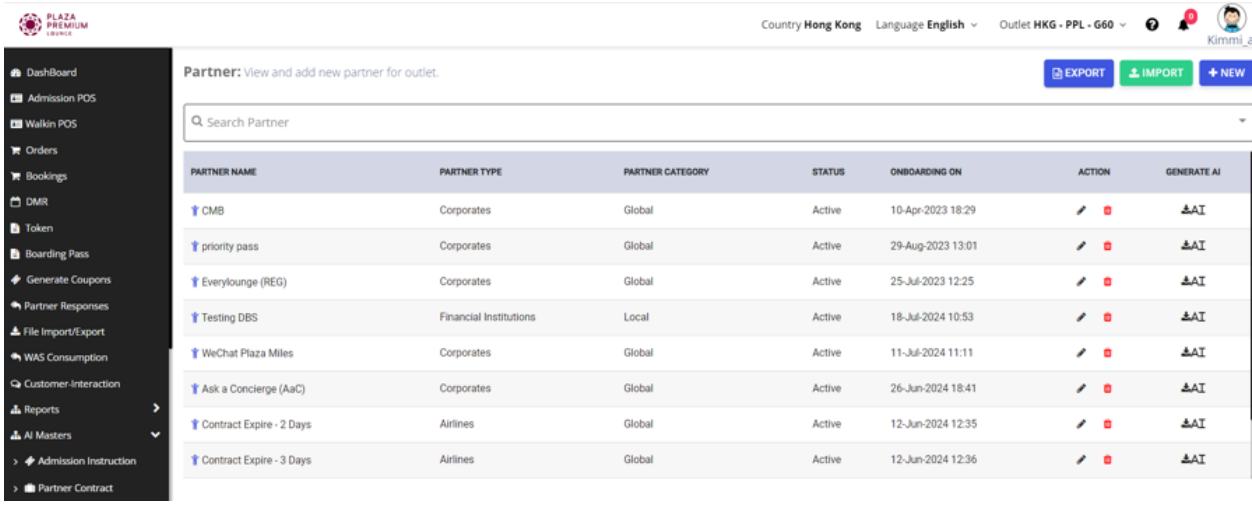
Screens:

> "Partner" screen URL: `lms.plaza.co/partner` (To view and export partners)
> "Add New Partner" screen URL: `lms.plaza.co/newpartner` (To add a new partner)

Description: This use case allows an Admin to create, manage, and maintain a list of partners. The Admin can onboard new partners, edit existing partner details, delete partners, and export partner lists.

Flow and Steps:

> **Accessing the Partner Section**:
>
> Navigate to the "Partner" tab accessible from the sidebar as a "Masters" submenu item.
>
> Click on the tab to open an in-depth data view of all partners.



> **Searching for Partners**:
>
> Enter partner details in the search field to search for specific partners.
>
> For an advanced search, click on the dropdown icon to access more filtering options.

Editing or Deleting a Partner:

Locate the partner to be edited or deleted in the table.

Click on the respective edit or delete icons in the "Action" column.

Adding a New Partner:

Click on the "New" button at the top left corner of the screen.

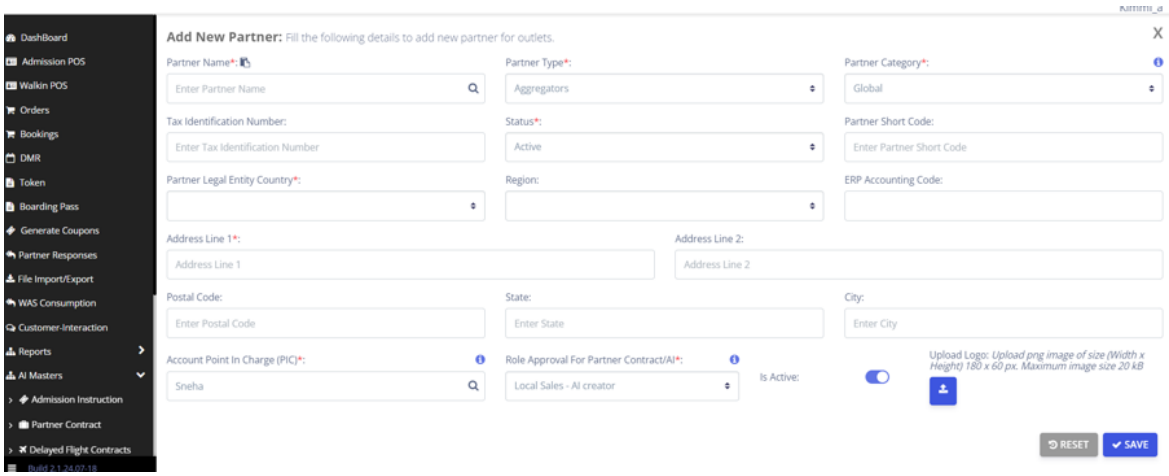
A form will appear; fill in the necessary details including:

Partner Name

Partner Status

Partner Category (optional)

ERP Accounting Code (optional)



Click the "Save" button to save the new partner details.
